

## RESEARCH PERMIT APPLICATION

As a condition of the research permit, the person who carries out the research or development project assumes responsibility for the processing of data, taking into account legislation on data protection and the processing of personal data. The project author has the duty to use data with due regard for confidentiality and strictly for the purpose of the research or development project and to ensure the privacy and anonymity of the data subjects. The data shall be destroyed, stored or possibly further used and opened in an appropriate manner after the project.

**1. Name/s of author/s responsible for the research/development project:**

---

**2. Role/title:**

---

**3. The applicant's organisation:**

---
